Summary: Eleven may have heard a bit more than she let on. By the way, she loves him too.

As long as I have you

A/N~~~This takes place during season 3 episode 6 while Mike declares that he loves Eleven. :) Also I have a quick rant about the season, so you can skip ahead if you want! Anyways, oh my lord they are so adorable! They're so much younger than most people in such intense relationships, and yet they are so deeply in love and bonded with each other. The way they worry about and protect each other is so much more advanced than most people ever get in a life time, and it melts my heart. I truly believe that they're soulmates and will get married someday (in the show). But now, for the actual story!

Eleven was tired from searching, but she could hear Mike talking about her. She had found the mind flayer, and was about to tell the group, but something about their conversation made her want to listen in. Boyfriend's don't lie. Or at least that's what she thought. The truth is, she could imagine Hopper telling him to stay away from her. That's what he said had happened, but she was still upset that he didn't just start with that. Still, he was talking, and hopefully she'd find out why he did what he did. "I'm just trying to demonstrate how careless Max is with Eleven's powers. In fact, how careless all of you are!" She did get into bad situations, but it was for a good reason. After all, having psychic powers came in handy when the world was in danger. "You're treating her like some sort of machine when she's not a machine. I don't want her to die looking for the flayed when they've obviously vanished off the face of the Earth." Eleven smiled at that. He was so sweet. He cared about her so much, more than she realized. At this point, she was sure he had a good reason for telling a lie. The fact that he worried about her so much was touching. "So can we please just come up with a new plan because I love her and I can't lose her again." Did he just? At this point she was on the verge of tears. The way she was raised was awful and being with Mike was the first time she felt truly safe. He loved her? Those were words nobody had ever said to her before. She was wrong. Boyfriend's do lie, but only to keep girlfriend's safe. He was absolutely amazing. But she couldn't tell him that. Not yet. She loved him just as much, if not more. But she had to worry about the Mind Flayer right now. As soon as things were calm and she could tell him all the thoughts running

through her head she would. But for now, It was battle time. "What's going on?"

AN~~~

Okay this wasn't as good as I was hoping but im kind of burnt out as a writer right now. I know I've been absent for a while, and I apologise, but I've been dealing with some things. I won't be posting as regularly, but I will be posting as ideas come to me. If requested, I will continue with a fast forward to Season 3 Episode 8. Again, I'm really sorry about how rushed this seemed. Thanks for standing by me, have a great day!
